se23uari065@mahindrauniversity.edu.in

Education

Mahindra University, Hyderabad Aug. 2023 - Present
B.Tech Artificial Intelligence *Current GPA: 9.29/10.0*

FIITJEE International College, Vijayawada June 2021 – May 2023
Intermediate(MPC) *Percentage: 97.7%*

FIITJEE(EM) high school, Vijayawada May 2020 – June 2021
10th grade *Percentage: 100%*

Coursework

Courses: OOPS, Data Structures & Algorithms, Machine Learning, Database Management System, Operating System, Software Engineering, NLP, Deep Neural Networks, GenAI & LLM'S, Software Engineering
Awards: University Merit Scholarship(3x), Qualified for competitive exams AMTI and NSO

Skills

Languages: C, Python, Java, HTML, CSS, Javascript
Database: MySQL, MangoDB
Libraries/Frameworks: Numpy, PyTorch, Pandas, Whisper, Wav2Vec2, XGBoost, Scikit-learn
Tools: Git/GitHub, VS Code, Google Colab, Matplotlib

Projects

Hybrid Predictive Maintenance

| *Python, Scikit-learn, XGBoost, PCA, K-Means, Pandas, NumPy, Google Colab* Feb. 2025 – May 2025

- Built a multi-phase predictive maintenance pipeline using the NASA CMAPSS dataset
- Applied **PCA** and **K-Means clustering** to identify degradation stages and generate labeled datasets for supervised learning
- Implemented **Random Forest** and **XGBoost** models for failure prediction and evaluated performance using **F1-score**, **RMSE**, **MAE**, and **R^2 metrics**

Full Stack Task Management Web Application

| *HTML, CSS, JavaScript (ES6+), Local Storage, Drag & Drop API, Git, VS Code* Aug. 2025 - Dec. 2025

- Built a responsive task management web application with full **CRUD** functionality
- Implemented **HTML5 Drag & Drop API** to enable dynamic task movement across workflow stages
- Developed calendar-based scheduling and state management for real-time UI updates
- Integrated browser storage APIs to persist user data across sessions

Automatic Subtitle Generator

| *Python, Whisper, Wav2Vec2, PyTorch, Speech Recognition, NLP* Aug. 2025 - Dec. 2025

- Developed an end-to-end **speech-to-text system** to automatically generate subtitles from audio files
- Implemented audio preprocessing, timestamp alignment, and automated .srt| subtitle file generation
- Integrated **Whisper/Wav2Vec2** models to transcribe multilingual and noisy audio recordings
- Evaluated transcription quality using Word Error Rate (WER) and improved transcription accuracy

Internship/Training Program

Accenture Go For Gold – Pre-Internship Training Program Dec. 2025 - Jan. 2026

Evaluated Completed structured training via iAspire platform, including a Python programming course, developing coding fundamentals and improving analytical and professional communication skills.

Hobbies

- Throwball, Kabbadi, Badminton
- Listening Music
